APICS Fall Executive Panel & Networking Symposium
November 9, 2019 | 8 - 11:30am | Harvey Mudd College | Claremont, CA

Southern California can become the world's leader in advanced manufacturing and logistics.

Robotics | IoT | Additive Manufacturing | Autonomous Vehicles |
GIP Mapping | Smart Clean Logistics Technologies

From aerospace to consumer products, innovations in advanced manufacturing and logistics can be game changers. Our panel discussion will address how collaboration can set the stage when responding to the latest trends, pressing priorities and challenging issues.
